Shared Table

Thank you to Christina (Henry & Charlie's mum) for all her organising and input for the Shared Table Lunch. Great Event.

STEM/Coding Program

Dear Parents,

Department of Education students have free access to a range of software. As part of our STEM/coding program, the year 3 - 6 students will be accessing the web based program, Tynker. Information regarding Tynker can be found at www.tynker.com.

To access the site students will create an online account using their DEC email account. Tynker hold email addresses to allow access to online accounts. As students' DoE email accounts contain their names, we are informing parents this will be happening. If you would like to opt out of your creating an online account please return the attached slip.

I wish to opt out of my child (ren) creating an online Tynker account.
